

Simmons Charolais Bull Data

Featured at Jordan Cattle Auction on 10/14/21 @ 10am

Thank you for your interest in our bulls. Development of bulls consist of a high roughage diet with the target gain of 2lbs per day from weaning until sale day. These bulls were not provided creep feed while on the cows. We offer them as purebred commercial bulls. Our cow herd consist of registered or registerable females and our herd bulls are hand picked, registered bulls that possess traits that we think are important to our customers.

Tag #	Horned/Polled	Act. Weaning Wt. 10/17/2020	Adj. Weaning Wt.	Weaning Ratio	Scrotal Circumference
